

YOUR CONTRIBUTIONS ARE ADVANCING COVID RESEARCH

- Over **12,000** participants
- **4,615,651** symptom reports logged during the pandemic
 - Over **372** days of logging per participant
 - Equivalent to around **12,600** years of reports!

- **91,100** words shared on COVID-19 healthcare experiences
- **23,721** CSS Biobank questionnaires completed
- **11,574** biological samples collected
- **7,900** cognitive assessments completed

- More than **70** reports published in peer-reviewed journals
 - Over **60** using symptom data only
 - **12** using CSS Biobank + symptom data - more to come!
- Over **10,000** scientific papers have cited our work
